The Randolph-Sheppard Act at 20 U.S.C. Accordingly, the implementing regulations at 34 C.F.R. Sec. 395.8(a) state that vending machine income from vending machines on federal property which has been disbursed to the state licensing agency by a property managing department, agency or instrumentality of the United States under Sec. 395.32 shall accrue to each blind vendor operating a vending facility on such federal property. The regulation further states that the amount accruing to each blind vendor shall not exceed the average net vendor income of the total number of blind vendors within the state. This determination is made each FY based on the prior year's vending operation. However, vending machine income shall not accrue to any blind vendor in any amount exceeding the average net income of the total number of blind vendors in the United States.
