Dear Colleagues,

I am serving as the superintendent of the Clinton Public School District located in Clinton, Iowa, home of Ashford University. I am providing my comments in regards to the DOE's 34 CFR VI Negotiated Rulemaking. I would like to provide you with my thoughts concerning Ashford University's online program and encourage you to take my email into consideration in your deliberations.

The University provides a quality much needed service to both the local and extended region population. Programs are relevant and rigorous. Students that I have dealings with that have come through the Ashford program are well equipped to move into the world of work. The cost is reasonable and within the grasp of all students.

I hope your rulemaking will allow current and future students the same access to an Ashford University education as has been available in the past.

If you would like additional information or comments, I can be reached at [Redacted].
